

Protect Your Employees, Visitors, and Property

Rave Facility lets you create a private and secure facility profile, including geo-fences that will trigger the profile should any phone dial 9-1-1 within the boundaries. You can include details such as multiple buildings, gates and access codes, floor plans, and points of contact on site.

Plan ahead now and create your facility profile at www.RaveFacility.com

By leveraging community-provided data including addresses, medical conditions, and photos, Smart911 protects over 86 million people nationwide

- 1 Database of Resident Community Information**
Share critical caller details in real time for faster response
- 2 Access and Functional Needs Registry**
Identify those community members who need special assistance during an emergency
- 3 Personal Safety Profiles and Caller Notes**
Flag conditions to better protect community members and first responders

No one plans to call 9-1-1, but now you can plan ahead. Creating a Safety Profile gives 9-1-1 valuable information about yourself, family members, home, pets, and even vehicles that will automatically display on the 9-1-1 call taker's screen when an emergency call is made. It's private, secure, and the user controls what information is in their profile. These details can save valuable seconds or even minutes during an emergency. Smart911 is currently available in all 50 states and is used in more than 3,500 municipalities across the country.
